BASEBALL

On Wednesday, May 26th, Champion and Vulcan Juniors met on the local grounds the score being 7-6 in favor of the visitors. Lohmeier and Johnson were the local battery. The game was a good one, errors being responsible for the adverse score.

On Sunday Blackie batted Champion the usual end of a 7-4 score, a fair crowd taking in the game. Champion scored all their runs in the first innings. Geoghegan and Nelson were in the points for Champion.

Champion lost to Red Cross on Wednesday by a score of 11-7. Engle, who started for Champion, developed a sore arm in the second innings and was relieved by Thiden who in turn gave way to Nelson. Binson taking Nelson's place behind the bat. There was a good crowd in attendance.

THURSDAY, JUNE 3, 1926

NOTES AND COMMENT.

It is easy to juggle with figures and twist their meaning to suit any argument. One certainty that faces the people of this province, however, is that taxes are constantly increasing and so is the public debt. If this is the best we can do the future is not very hopeful.

This year's experience with soil drifting must suggest very forcibly that something more must be done in the future to prevent this than has been attempted so far. This trouble is general all over the prairies from the mountains to Winnipeg and is increasing steadily. Many remedies are suggested, many of which are not applicable here, but that means must be found to combat this menace is very apparent as it is widening the base of its activities at a very rapid rate.

These train loads of crude oil being rushed to the refinery at Calgary may well be regarded with more or less pride that such big business is being negotiated in this province. The potential millions underlying Turner Valley and other oil areas in Alberta, to tap which millions are now being spent, suggests future wealth and importance. There is only one little fly in this ointment, viz: these products must be purchased and used in immense quantities to keep this big business going. This leads directly to the point—are we not burning altogether too much oil and gas for our own good these days?

More of the U. F. A. members are being renominated than was at one time expected. It was thought that the locals in the different ridings would insist on passing round the honors and letting all opinions prevail. But the U. F. A. members are prevailing at the conventions and receiving renominations, which shows that the U. F. A. is getting more and more like the old political parties, in organization methods at least.—Albertan.

The election campaign is now under way all over the province. With three candidates in the field in practically every rural riding the result should favor the present government as their supporters are not divided while their opponents are. It may safely be stated that the result of the elections will show a big falling off in U. F. A. support, which, as stated, will be largely offset by the re-appearance of the Conservative party in the field. As the fight progresses there may be variations of the situations, but present indications would lead to the belief that the government will be sustained but by a largely reduced majority.

Another effort is being made in the federal parliament to limit the time of speeches of

members, which is very wise, if it can be done. Creating a public opinion among the members for short speeches is about the only thing that can be very effective. We have sufficient closure now.—Albertan.

Alberta Assembly Is Prorogued

The sixth session of the fifth Legislature of the province of Alberta was dissolved by Lieut. Governor Egbert May 22nd. In the three-day adjourned session that preceded prorogation several important matters were dealt with. The original intention in adjourning on April 18th was to give opportunity for the Dominion Government to advance the Natural Resources bill, and to enter into negotiations with the E. D. and B. C. railway.

With regard to the railway situation, the Premier announced that it had been decided to make a settlement with the Royal Bank, which at present owns the common stock of the E. D. and B. C. This gives the Government power to dispose of the road as they see fit. Interviews had taken place with the C. P. R., C. N. R. and Dominion Government with regard to buying or leasing the road. The Premier made an offer, but this could not be disclosed until the offer from the C. N. R. was forward. The Province, it was stated would suggest a time limit to the C. N. R. as their delay was holding up the settlement of the railway problem.

With regard to the Natural Resources, the Dominion Government has not made further progress with their bill since the previous meeting of the Alberta House. The Alberta Legislature gave their reading to their own bill, after amending a clause which had been interpreted at an infringement of the Province's control

of education. Liberal members asked for further delay for negotiations with the Dominion but the Government view was that the Dominion should know definitely that Alberta wanted the resources, but did not want educational questions introduced into the bill.

In view of the increase in the popularity of Ontario and Canada among visitors with American tourists, the June issue of Rod and Gun which is a special Ontario Tourist Number, is particularly interesting. All stories and articles in the number, with the exception of the feature features, deal with Ontario sport while a personal message from the Premier of Ontario welcomes all tourists to the province and a special Ontario section describes some of the beauty, health, fishing and hunting resorts of Ontario. A new aspect of angling is given in "The Double Trout of Lake Superior," possibly the gem of the table of contents, while "Trout Fishing" is a delightful reminiscence of the creeps of old Ontario. The regular gun, fishing, outdoor and kennel departments contain specially interesting material for this issue. Rod and Gun is published monthly by W. J. Taylor, Limited, Woodstock, Ontario.

A bill for the regulation of stock yards within the Province was passed during the adjourned session. This bill will not become effective unless the Dominion statute dealing with stockyards is declared ultra vires, or other emergency arises. The constitutionality of the Dominion Act has been questioned, and if this was sustained it would leave the yards with no regulating influence.

When tracing embroidery designs from an old pattern, marking seams, licks or darts, use a tracing wheel and a sheet of white carbon paper.

Don't use bluing in rinsing water. Use it in the wash boiler instead, and blue the water about the same tint as for rinsing. It will help to whiten clothes after two or three washings.

When gathering use two single threads from one-quarter to one-half inch apart. Then in stitching the gathered section to the straight apitch between the two rows of gathering threads. This prevents the material from pulling along and forming pleats under the presser foot.

28th International Eucharistic Congress Chicago - June, 1926

The 28th International Eucharistic Congress, to be held in Chicago, June 29 to 24, 1926, will be one of the greatest religious demonstrations that the world has ever seen.

With the sanction of the Ecclesiastical Authorities and, for the convenience of people of Western Canada, who will attend the Congress, the Canadian Pacific will operate special "Congress Trains," starting from Moose Jaw and Winnipeg. The Moose Jaw Special will leave 5:30 p.m., June 18th; the Winnipeg Special 8:15 a.m., June 19th. These specials will carry equipment of the latest type, and provide a fine, fast through service to Chicago.

Special sleeping cars will start from various points in the west and attached to the "Congress Specials" at Moose Jaw and Winnipeg.

REDUCED RAILWAY FARES

Reduced railway fare tickets from stations in Western Canada will be placed on sale June 16th to 22nd, bearing a final return limit to July 2nd, 1926. These tickets will be honored on regular or Special trains.

The Canadian Pacific are in a position to make hotel reservations in Chicago, whereby passengers may complete every detail of their arrangements prior to departure. As thousands will attend this event, those who intend making the trip should communicate as early as possible with the Ticket Agent in order that desired accommodation may be secured.

Buttons which are to go through buttonholes should never be sewed flat to the garment, but a shank should be made by laying a pin over the top of the button and sewing over it.

THE CHRONICLE,

Champion.

Local and General

Baseball here June 9th.

Entries to the Calgary Exhibition close on June 10th.

Mrs. A. W. Jopling returned home from Vulcan on Tuesday.

Evangelical Lutheran church services next Sunday at 3.00 o'clock. You are welcome to take part.

Improvements to the village streets are still in progress and promise to be highly beneficial when completed.

The meeting of the board of the united church will be held in the church on Wednesday, June 9th at 8 p. m.

E. Liefar left on Tuesday for Lethbridge, where he has secured a position and will manage a baseball team.

Mr. and Mrs. F. L. Bassett have moved into Mrs. Holman's residence which was recently vacated by Mrs. F. Gallows and children.

Golf enthusiasm seems to have waned recently from its previous height and the links have again become lonely. Was it a sort of spring fever that prevailed a short time ago, or what is the matter?

Owing to the fact that rural schools will be required for polling places on June 28th, the date of the provincial elections, the dates of the Departmental Examinations have been altered. Your attention is drawn to the fact that the examinations set for Saturday, the 26th; Tuesday, the 29th; and Wednesday, the 30th, remain as previously announced; those set for Monday, June 28th, will be held on Friday, June 25th, while those set for other dates will be held one day earlier, at the hour previously announced.

Geo. Taylor retired from the dray business this week in favor of the proprietor, F. L. Bassett, who returned recently with Mrs. Bassett from a honeymoon trip to northern points.

According to the records of the officials weather man, Kamloops, B. C., enjoyed more sunshine last year than any other place in Canada. The city had a total for the year of 2,419 hours.

PUBLIC INSTITUTIONS

Galt Hospital, Lethbridge

First-class Hospital Service at reasonable rates.

Private, Semi-Private, and Public Ward accommodation for surgical and medical cases.

Separate Case Room for obstetrical purposes.

This is beyond question one of the finest ranching propositions available in Alberta.

10,000 Acres

In the Municipality of Clifton in parcels of 160 acres up priced from \$2.75 to \$8.00 per acre, including some splendid buys. Detailed description of many of these parcels will be printed in an early issue.

A list of farms throughout the Champion district will be forwarded upon application, these including some of the finest properties in the district.

BRITISH LIBERAL PARTY HEADS ARE IN DISPUTE

London.—Political circles in London are humming with excitement over the open breach between Lord Oxford and Anquith, titular head of the Liberal party, and David Lloyd George, the real driving force and leader in the House of Commons. Everyone is speculating on Lloyd George's future. It is recognized that either he or Lord Oxford must leave the party, and it is not expected that it will be Lord Oxford, who has the support of the old-timers in the control of the Liberal machine. On the other hand, it is believed, Mr. Lloyd George, if he plays his cards well, can win the support of the Liberal rank and file of voters, and perhaps attract new blood.

Mr. Lloyd George, it is believed, will refuse to accept election from the Liberal party, but he may place himself at the head of the radical wing and make approaches to labor, not for a fusion, but for a coalition and perhaps a coalition in the event of the new alliance coming to power. It is believed he would be willing to serve under a labor prime minister, while preserving his political independence as a left wing Liberal. With this programme in view, it is believed he is planning as soon as parliament re-assembles, to advocate settlement of the mine crisis and favor labor policies, considering the mine as the tribune of the people and co-operating closely with the Laborites.

Won't Appeal Convictions

Frut Concessions Abandon Appeal From Fines Aggregating \$200,000

Vancouver.—Notice of the abandonment of their appeal against fines aggregating \$200,000 has been filed in the court of appeal registry here on behalf of A. J. Simington, R. P. Lloyd, William Coleman, W. E. Carstairs, of the Mutual Vancouver Limited; Mutual Brokers Limited, Calgary; Mutual Brokers Limited, Regina; and Mutual Brokers Limited, Winnipeg.

The notice is signed by agent-in-charge, J. E. Davis, Esq., Vancouver, B.C., and J. E. Davis, Esq., K.C. and J. E. Davis, Esq., K.C. and J. E. Davis, Esq., K.C. The appeal was to have been heard in Victoria in June.

With the abandonment of the appeal the crown has arranged to drop its cross appeal for prima facie for the convicted South officials found guilty of conspiracy.

They had been fined \$25,000 each by Mr. Justice D. A. McLeod, who, in addition, imposed nominal imprisonment of one day. Similar fines were assessed against the guilty corporations.

Labrador Boundary Hearing

Will Come Before Committee of Judicial Council in October

Ottawa.—The department of Justice has been notified that the date set for hearing the Labrador boundary dispute before the judicial committee of the privy council is October 19 next.

Right Hon. C. C. Doherty, former minister of justice, with English counsel, will represent the Dominion Government.

U.S. To Participate

Toronto.—United States Government has officially accepted Canadian invitation to participate in the World Poultry Congress to be held at Ottawa in 1927, and has made an appropriation of \$20,000 for preliminary expenses of its participation. R. C. Ford, director of the congress, told an organization meeting here.

Employment Shows Increase

Ottawa.—Although activity in some lines was retarded by the incalculable power prevailing generally at the beginning of May, says the bureau of statistics, employment in the whole showed a considerable increase, 23,118 persons being added to the staffs of 5,866 firms reporting, who employ 775,417 workers.

No New Legislation

Ottawa.—Except for amendments to the criminal code, "and possibly some minor legislation," the government has no new legislation to present to parliament in the coming session, Premier King so informed the Right Hon. Arthur Meighen in the House of Commons.

Cost of Strike to British Railways

London.—The gross losses suffered by the four big railway companies in Great Britain as a result of the general strike and the coal miners' strike last season, according to the Railway Gazette.

Would Include Union Jack

General Smuts' Suggestion For New South African Flag Is Opposed

Cape Town.—The debate in the legislative assembly on the government's bill providing for a new flag for the Union of South Africa, without embodying the Union Jack in its design, Premier J. B. Hertzog declared he had no reason to doubt the Union Jack, but he thought the unity spirit never could be brought about by putting it on the national flag.

General Smuts, Minister of Education of the South African Union, pointed out that the government's provision for flying the Union Jack would only apply on Empire Day.

The opposition had supported a combination of the old Republic colors and the Union Jack for the proposed flag and they could see no reason to depart from this stand, he declared. General Smuts vehemently denied the assertion that the old Republic flag was dead. The proper method of approach, he declared, should be not the exclusion of the old flag, but its inclusion, as Great Britain had done in the case of the crosses embodied in the Union Jack.

Queen Celebrates Birthday

Her Majesty Was Fifty-five Years Old On May 26

London.—Her Majesty Queen Mary was 55 years of age May 26. The day was celebrated in all the government buildings in observance of her birthday. She is in excellent health. Details of the numerous years have caused her hair to be noticeably whitened.

The Queen, who was born in Kensington Palace, May 26, 1867, was the only daughter of the Duke of Teck and H.R.H. Princess Mary Adelaide of Cambridge, son of George III.

She was married to her cousin, King George V, Duke of York, at the Chapel Royal, St. James Palace, July 8, 1893. King George and Queen Mary were crowned in Westminster Abbey, June 23, 1911.

Budget Resolutions

Minister of Finance Had Two Amendments Which Were Adopted

Ottawa.—Budget resolutions for the return of penny postage, abolition of the receipt tax, reducing the tax on playing cards, extending the list of articles exempt from sales tax and of articles liable to only 50 per cent sales tax passed the house.

Hon. J. A. Robt. minister of finance had two amendments, both of which were adopted. One added steel tubing for oil wells and machinery for pumping crude oil to the list of articles exempt from sales tax.

The other added dried or evaporated apples to the list of articles liable to only 50 per cent of the sales tax.

A bill passed on the resolutions was given first reading.

Completing Giant Motor Car

Noted Driver Will Attempt to Lower World's Speed Record

London.—A giant motor car now being completed at Wolverhampton is to attempt to plant the world's speed record will be officially rated at 1,000 horsepower, have two engines and six cylinders, will consume a gallon of gas a mile and is expected to attain a speed of 200 or 220 miles an hour.

Major Segrave, noted driver, will attempt to lower the record in September.

Income Taxes In 1924

Ottawa.—Answering a question in the House of Commons, the minister of finance stated that 225,254 individuals paid personal income tax in the fiscal year of 1924. Of these 218,472 had incomes below \$10,000.

Finds Canada Ideal

Conditions Superior to U. S., Says Swedish Government Lecturer

Stockholm.—Canada as a future home for many Swedish citizens was described as ideal by Gunnar Brundin, official lecturer of the Swedish government, who arrived in the city accompanied by H. Hermann, Winnipeg, former member of the Saskatchewan legislature.

Mr. Brundin is making a trip through Canada from coast to coast in the interests of immigration. Much of his time will be spent in British Columbia, where he will make extensive studies of the fishing and lumbering industries. He expects to return to Stockholm in January and commence a series of lectures describing Canada. He is taking pictures en route which will be transferred to slides to illustrate the lectures.

Preference to Canada over the United States, as a field for immigration by Scandinavians was expressed by Mr. Brundin. He declared that Canada did not receive enough publicity in Sweden, and he hoped that his mission to Canada had not assumed large proportions.

Morocco Cries Surrenders

Abd-el-Krim, Rifan Warlord, Has Finally Captured

Madrid.—Abd-el-Krim, the Rifan warlord, has surrendered. Official announcement to this effect has been made here.

Krim entered the French zone in Morocco in flight from the Bonkaya (Spanish) zone. He is the only Moroccan not yet available.

Rather than fall into the hands of the Sultan and have to face native justice, Krim is declared to have preferred to put himself at the mercy of the French.

The abdication of the chieftain had been expected in official circles, and there was much rejoicing throughout Spain when the foreign office made the announcement of his surrender.

TARIFF BOARD

WILL DEAL WITH STEEL INDUSTRY

Ottawa.—The tariff advisory board commenced its work by hearing the applications of two Canadian steel companies which asked for more tariff protection, as well as an argument in reply made by R. J. Deachman, who announced that he represented George Spence, a farmer of Maple Creek, Sask., and a consumer of steel products.

Mr. Spence is the Liberal member of parliament from the constituency of Maple Creek.

The session was in the nature of a preliminary hearing which is to be followed up by inquiry into the steel industry in Canada which will continue over a period of several months.

The board will have the assistance of the technical staffs of several government departments. Shortly a questionnaire will be issued to the various companies which will be the basis of the investigation. Right Hon. Geo. P. Graham made it clear that the board was to be an open forum before which anyone could be heard on the subjects of tariffs.

Outstanding in the hearing was the argument of the Algoma Steel Company that the Canadian automobile industry was already adequately protected under the existing tariff, by which was meant the tariff as amended this session of parliament.

The Algoma Steel argued consequently that the "draw-back" of 99 per cent, enjoyed by automobile manufacturers on several articles of steel was unjustified. The case was presented by Norman Guthrie.

FOR MARKETING OF LIVESTOCK ON A POOL BASIS

Refus.—To co-ordinate the efforts of the livestock co-operative marketing organizations in Alberta, Saskatchewan and Manitoba the International Livestock Pool, Inc., was formed. The organization is a committee of three—one representative from each province.

C. Rice-Jones, president and manager of the United Livestock Growers, told the conference that the shareholders of the United Grain Growers, who are owners of the U.L.G., would be prepared to turn their organization over to the provincial livestock pools and give the producers their own central selling agency, where the pool would be on a strong basis as going concerns.

The conference passed a resolution calling upon the federal minister of agriculture to take steps to remove any disabilities that co-operative marketing organizations would face under the existing Livestock Products Act and to make provision to give co-operative livestock marketing organizations the same rights and privileges as co-operative marketing organizations to operate under rules prescribed by the department of agriculture.

G. P. Edwards, president of the Saskatchewan Grain Growers' Association, presided at the conference.

Alberta Natural Resources

Bill Not Likely To Be Proceeded With This Year

Windsor.—The Ottawa correspondent of the Tribune says: A Liberal caucus had the plain intimation from the government that the Alberta Natural Resources Bill is unlikely to be proceeded with this year.

It was plainly indicated the government does not intend to carry the agreement in accordance with the Alberta Legislature's amendment regarding schools, but at the same time, the department before the house will be proceeded with unless there is some unforeseen development. In the recess further negotiations are hoped to bring about a settlement.

Franco-German Air Service Is Started

First Aeroplane Left Capital Cities On May 26

Lebourget, France.—Aeroplane communication between Paris and Berlin became a reality May 26 for the first time since the war, when two French commercial planes left the airport here for the German capital, and German planes left Berlin for Paris.

These are the first aeroplanes to pass over the once hostile countryside from capital to capital since the recent Franco-German agreement was signed.

Level Crossing Costs

Ottawa.—H. C. A. Dunning, minister of railways, has a bill to amend the Railway Act in regard to level crossings. The bill will provide that the total amount of money to be appropriated and payable from any annual appropriation shall not, in the case of any one rail level crossing, exceed forty per cent of the cost of actual construction work and shall not, in any case, exceed the sum of \$25,000.

Succeeds de Valera

Dublin.—Mr. MacDermid has been elected president of the Sinn Féin executive council in succession to Eamon de Valera.

Lloyd George Sticks To Former Opinion

Blimes Government For Breaking Off Negotiations Before General Strike

London.—Mr. Lloyd George, chairman of the Liberal parliamentary party in the House of Commons, defended his attitude toward the general strike, which has been strongly censured by the Earl of Oxford and Anquith, leader of the Liberal party.

Mr. Lloyd George charged that the negotiations between the government and the union leaders had been broken off because the strike in the office of the Daily Mail. He said that the trades union leaders had repudiated this strike, but that the government had refused to negotiate further, although there was still twenty-four hours before the general strike was due to commence.

"All this doesn't justify the general strike," Mr. Lloyd George said, "but while we are blaming the trades union leaders for their blunders, let us be impartial in our judgment and note our condemnation of the incredible blunders committed by the government."

"However much I disapprove of this action, I could not hurt myself or to a host of righteous anger against men who, however mistaken, however unwisely, however wrongly, were acting from no selfish or devious motives, but were doing their own livelihood to help their comrades in a desperate plight."

Japanese City In Ruins

Huge Irrigation Reservoir Burst Banks and Floods Kibera

Yokohama.—The Mayama irrigation reservoir in the Akita province of Northern Japan has burst its banks and has swept away half of the town of Kibera, according to reports received here. The town has a population of 7,000 and it is feared that the casualty list may be heavy.

The reports say that the post office, a bank and a theatre in Kibera have been carried away by the water. The bulk of the flood situation are heaving. A large number of injured have been taken from the ruins of eight buildings, including the town hall, which was washed away when the dam burst.

Roads, telegraph and telephone poles were carried away in the flood, interrupting communication and making accurate details of the catastrophe unobtainable.

Assassinate Former President Of Ukraine

Jews' Bullet Ended Career of General Simon Petura

Paris.—The spectacular career of General Simon Petura, former president of the Ukrainian Republic, received its end when he was shot by a Jew's bullet in the street near Paris.

He died in the Charly Hospital here a few hours after he was shot down by a Ukrainian Jew, Simon Petura, in the student quarter of Paris. The assassin did not resist arrest.

Simon Petura, exiled over his deed, said it was in revenge for the war Petura had mistreated Russian Jews in the Ukraine when he held power.

PROTEST FROM HUNGARY HEARD AT GENEVA MEET

Geneva.—Fervent reinforcing of arguments by most of the European countries in the council of the League of Nations was alleged by Hungary in a memorandum presented to the preparatory disarmament conference.

Hungary also complained with bitterness that, practically disarmed herself, she is surrounded by a group of allied countries possessing vastly superior military forces.

By this memorandum, Hungary has placed herself at the side of Germany, which country, through Count von Bernstorff, already has protested that the Germans have been disarmed, while their neighbors are permitted powerful military forces.

The Hungarian memorandum caused a sensation, chiefly because of its strictures against the Little Entente. The memorandum demands the abrogation of treaty regulations whereby Hungary was restricted to 25,000 men, a force that the Hungarians consider insufficient to protect them. Hungary insisted armed reduction must be general to be effective, and issued a warning that if some reduction failed to materialize, Europe and the League of Nations would be gravely endangered.

CONCRETE STEPS THAT MAY LEAD TO DISARMAMENT

Geneva.—The League of Nations preparatory disarmament conference which opened here was heralded as a step toward world-wide disarmament and was called by the optimists of the League the most important development since the signing of the Locarno agreement.

Adjustment of the one-week session, with technical sub-committees entrusted with studying seven questions, which must be answered before a world disarmament conference can be called, brought expressions of optimism and pessimism.

Vicomte Coud, the British representative at the meeting, and other leaders did not conceal their belief that it may be years before a general disarmament programme can be carried out. Civilian critics pointed out the fact that the action of the session marked the first concrete step by the League toward disarmament after six years of study and preparation. Others claim it as entirely possible that another six years may elapse before the League could carry out its programme.

It was pointed out that a general disarmament conference will be called by the League only when world-wide security agreements make possible an armistice reduction on so gigantic a plan as that which is desired.

As the final session closed, Coud urged the sub-committees to take all time necessary in preparing their reports. Their work, he pointed out, would be the basis of the greatest revolution the world has ever undertaken, namely, disarmament.

Alberta Election June 28

Provincial Campaign Is Now Off To A Good Start

Edmonton.—General election day in Alberta will be Monday, June 28, with nominations on Friday, June 16.

The writs have been issued for some time and the campaign is now off to a real start. The government, which is about to try to carry out its policy in Alberta, came into office in 1921, when a ticket nominated by the United Farmers won a landslide victory over the former Liberal government.

A cabinet of farmer members was struck, with Herbert Greenaway, minister of agriculture, as a member for attorney-general in the person of John B. Brownlee. After a few years of the Greenlee administration, the government has been in the government ranks, and last fall a change was made at the instigation of the U.F.A. members, as a result of which Mr. Brownlee became premier in place of Mr. Greenlee.

A policy of cooperation with Labor has obtained from the government. Four of the members elected were Labor members, including one of the ministers.

Germany Divided Over Referendum

Will Vote On Confiscation of Former Rulers' Property

Berlin.—The German press is becoming increasingly bitter over the referendum on June 20 on the proposed confiscation of the property of the former ruling houses in Germany. According to a forecast based on the voting lists of the last provincial election, it will require 1,570,000 votes to establish a majority in favor of confiscation.

R.C. Fight Promising

Vancouver.—The R.C. is a good fight throughout British Columbia during the coming season are extremely promising, according to present forecasts, says officials of the R.C. and provided fair departments. "I would not be a bit surprised to see the R.C. crop as heavy as it was in 1923, which was the largest crop we ever had," declared R. G. L. Clarke, of the Dominion department.

Says Arctic Eskimoes Are Deceived

Montreal.—The Eskimoes of the Canadian Arctic are doomed to early extermination unless prompt measures are adopted by the government for their protection, in the opinion of Captain Henry Teak Moss, retired Arctic explorer, who has been visiting the city of the north, as given in an interview here.

Cyclone Hits Burnham

Burnham.—Burnham—Reports received from Burnham say that a severe cyclone has caused considerable loss of life and considerable damage to property. The law courts and most government buildings were destroyed. Telegraphic communication has been interrupted.

When Butter Is Sold On Sight

Grocers know the value of an attractive Appleford wrapper for butter. They realize the selling power of a distinctive design. They know that in the customers eyes it increases the value of the butter.

In Appleford wrappers you get a high-grade parchment paper with a special design that attracts the customer's eye. Being absolutely greaseproof it protects the flavour of your butter.

May we design a wrapper for your creamery? Write us for samples and prices.

More About This Wonderful Age

In the column last week attention was directed to the marvellous achievements of recent years in the field of mechanical invention and the commencing—deplorable within a decade far outstripping the work of previous centuries. But it is not alone in the field of mechanical invention that this is truly a wonderful age. The onward march of progress is just as rapid and even more remarkable in scientific research and attendant results.

Take the science of preventive medicine as an example. It is difficult today to realize that only a century ago the average length of life was less than thirty years. It is practically difficult to realize that the average life in the United States and Canada has been lengthened by five years since 1900, but so quietly and effectively have the forces of prevention been carrying on their successful warfare against disease and death that few realize what has been accomplished, nor how it has been accomplished.

One of the chief causes is the decrease in infant mortality. The spread of vaccination day after day, with more, efficient and more complete the more modern surgery, pure milk and water supplies have prevented typhoid, fresh air has done much to conquer tuberculosis, and other acute and chronic diseases, diphtheria, scarlet fever and other diseases, the discovery of insulin, the discovery of the cause of disease, the knowledge of how the excess or lack of secretions of the ductless glands affect the health has opened a new world to the medical profession.

With all its horrors, sufferings and losses, the Great War conferred at least one benefit on mankind in that it opened the eyes of all people, and particularly all governments, to the physical condition of the race and demonstrated that the greatest of all national assets are people, and people of strong bodies and robust health without whose mental equipment must remain below par. The Great War also demonstrated on a huge scale beyond all possibility of dispute that disease can be controlled and prevented.

In times of peace, people can, if they will, live clean and hygienic surroundings, obtain pure food and water supplies, eliminate filth and disease breeding germs. But this is not always possible in the case of troops under war conditions. In the South African war the British had 54,000 cases of typhoid fever and 5,000 deaths in an average army strength of 200,000. In the Great War the average strength of the British Army was 1,250,000 men, but only 7,500 cases of typhoid and 268 deaths therefrom. Why? Because at the beginning of the war all British soldiers were inoculated against typhoid. Soldiers were not inoculated at first and in the first eleven months there were 98,000 cases with nearly 12,000 deaths. Then the French were inoculated with the result that the amount of typhoid fever fell to 10 in the British Army.

A very frank article by Dr. C. E. Fleming appears in the British Medical Journal respecting the disappearance of certain infectious diseases which in the past used to demand high toll in Great Britain. Figures quoted from the British Ministry of Health show that from 1880 to 1924 diseases such as diphtheria, typhoid, scarlet fever and tuberculosis have decreased 50 to 97 per cent. In the case of smallpox the decrease is actually 100 per cent, not a single case having been reported by the rank and file of the people. Medical science now fairly claims a fair share for the result, but better conditions of life, of home, of workshop, the stopping of child labor, shorter hours of work, better food, more sunlight and air, more rational dress, more outdoor recreation, all have been instrumental in effecting this glorious change for the better.

Doctors and Government and municipal health authorities can do much, and are doing it, but unless they are supported by the rank and file of the people their best efforts will be of little avail. An enlightened public can do more to prevent disease than any other agency. It was in full recognition of this fact that in 1917 the League of Nations Article XXV, was introduced requiring countries to join the League to encourage, promote and maintain an active Red Cross Society to enroll all the people in its membership and in a world-wide crusade for good health with the object of promoting health, preventing disease, and mitigating suffering arising out of sickness, accident and disaster. The object of all people in health matters, the world-wide organization of the Red Cross is doing much to dispel disease and eliminate much unnecessary suffering, and is thereby adding to the length of life and contributing to the happiness and prosperity of all people everywhere.

Cities Pass Million Mark

Estimates of Population of U. S. Cities Are Published

Estimates of the population of 229 cities having 50,000 or more inhabitants, were announced recently by the U. S. Department of Commerce.

By May four, the only cities having more than a million or more population, show a million or more population.

With 5,252,000, against 5,620,918 in 1920. Chicago passed the three million mark for the first time, with 2,948,000, against 2,701,700 in 1920.

Philadelphia, crossing the two million mark, relates third place with 2,008,000, against 1,823,770. Detroit continues fourth with 1,729,000, against 993,578.

Use Minard's Liniment in the stables

Device Makes "Dry Ice"

Is Perfectly Dry, Cannot Melt, and is Intensely Cold

A device that makes what is called "dry ice" will keep ice cream frozen in its original state for hours at a time without the use of ice. It is now possible to send a pint of ice cream from New York to Chicago by airplane and the ice cream is as fresh as when it was made.

"Dry ice" cannot melt and is perfectly dry to the touch, and is so cold that it will make a thermometer drop in 100 degrees below zero.

You have noticed the small bubbles that form and rise to the surface in a soda pop bottle when you pop off the cork. The new ice, popular Science Monthly explains, is made out of the same gas that forms those bubbles. In other words, it is carbon dioxide gas, cooled down and compressed until it finally forms a solid, frozen mass.

Sublimated carbon dioxide has been known for a laboratory scale several times, but this is the first application of this queer freezing agent to the preservation of ice cream.

Painful Sprains, Bruises, Restored By Nervine

There is nothing new in Nervine that has made it famous for nearly 75 years. It is a simple, effective, and safe remedy for all kinds of sprains, bruises, and other injuries. It works quickly, it takes away the pain from a sprain and brings a return of full motion to the injured part. It is a true nerve restorer, and it is a true nerve restorer.

Marketing Board Formed

Manitoba's Share of Wheat Board Surplus Will Be Put To Work

An organization to be known as the Co-operating Marketing Board has been formed to administer the income from investment of the \$125,000 which came to Manitoba as its share of the Dominion wheat board surplus. It was officially announced in Winnipeg.

In accordance with legislation passed by the provincial legislature during its last session, the board will be in the development of a co-operative movement of co-operation among agricultural producers in Manitoba in the marketing of their products. The board will investigate other systems of co-operative marketing throughout the world. About \$4,000 will be available annually for the work of the board.

Number Of Motor Cars

Eight Canadians in Every Hundred New Own-Motor Vehicles

Nearly eight Canadians in every hundred owned motor vehicles last year. Figures compiled by the Bureau of Statistics show that in 1925 the total number of motor vehicles registered in Canada was 728,000, or 7.2 per cent of the population. It was 475,000, or 4.7 per cent of the population in 1924. The increase was 50.5 per cent.

"I have used Cuticura ever since. It is a wonderful remedy for all kinds of skin diseases. It is a wonderful remedy for all kinds of skin diseases. It is a wonderful remedy for all kinds of skin diseases."

Preparing For Poultry Congress

World Poultry Congress To Be Held In Ottawa Next Year

A tribute to Canada's progress was paid when it was decided to hold the 1927 world's poultry congress in Ottawa, according to Edward Brown, of London, England, president of the congress and president of the International Association of Poultry Inspectors. A committee of experts will be a guest recently at the Port Garry Hotel. Mr. Brown was in Winnipeg to meet agricultural officials in connection with the poultry congress and incidentally he inspected the Manitoba Agricultural College buildings during his visit.

Red Lake Bulletin

Many Prospectors Outfitting For Trip Into Mining Areas

Information regarding the district of Patricia, Red Lake, and adjacent areas has been compiled in handy bullet form by the Ontario department of mines. It gives the information as to staking and recording mining claims and suggestions as to supplies and equipment for inexperienced prospectors. A good map of the Red Lake district is included. Hudson is now a busy spot, many prospectors outfitting for the trip into the mining areas. Gold seekers numbering about 30 are arriving every day, leaving by the Red Lake steamer after they get their equipment together.

—Go Forward—Not Back—Join the U. F. A.—

Issued by the Publicity Committee, Calgary

Local and General

Mr. and Mrs. F. J. Clapp spent the week end in Calgary.

The interior of the Sam Fong Cafe is being remodelled and brought strictly up to date, E. F. Crawford being in charge of the work.

E. Mason, manager of the Canadian Bank of Commerce, has been transferred to Drumheller, and W. S. Ryan, former manager of the Bank of Hamilton branch, will take charge here.

Children playing on the golf links have developed a tendency to destroy the greens and obliterate the marks used. This interferes seriously with any pleasure the players might have and efforts on the part of parents and others to prevent this would be highly appreciated.

Considerable damage has resulted in this district from soft drifting, the real extent of which depends upon how long a good rain is delayed. Many fields have escaped damage of any kind and are looking extremely well for this time of year but rain would be welcome in every instance.

Mr. and Mrs. L. J. Adams arrived here on Saturday after a three months visit to California. Both enjoyed the trip immensely and while glad to meet their many friends here again admit regret at leaving the south. Mr. Adams, however, enjoys much better health here than in California.

The west will experience the largest influx of eastern tourists in its history this year, in the opinion of George I. Warren, commissioner of the Victoria and Island Publicity Bureau, who has just returned over Canadian National lines from a trip to eastern Canada and the United States.

Vulcan will celebrate Dominion Day this year as usual. The programme includes base ball, horse racing, football, athletics, etc., and a real day's sport is assured everyone who attends. Vulcan's July 1st is known all over Alberta as the established annual event, and splendid crowds have patronized it in former years.

Champion Chapter O. E. S. has been selected to put on initiation work at the meeting of the Grand Chapter in Calgary this week and the following are in the city in this connection: Mr. and Mrs. J. N. Beaubier, W. C. Hoskins, Mesdames Watkins, Collins, Orr, Dupue, Hardisty, Woodhull, Williamson, Voisey, Harper, Hagerman, C. E. Anderson, Hagg, Taylor, Manhard, Stephenson, Gow, Roberts, Archibald, Blatchly, Misses Watkins and Bowman.

The Champion W. L. will meet on next Tuesday afternoon, June 8th, at the home of Mrs. Wm. Ulrich. Roll call response is "What I like best about the Women's Institute." The report of the annual convention, recently held in Calgary will be given by the official delegate, Mrs. Chas. Boner. All women in the community are cordially invited to attend. A pattern exchange has been planned for this meeting. Any one having a used pattern they are through with, bring it and five cents, and get some new ones pattern.

CHURCH BULLETIN

Rev. J. Lee announces the following services for Sunday next, June 8: 11 a.m.—Sunday School. 3 p.m.—Service at Blusson School. 7.30 p.m.—Service at Champion. Mr. Lee will conduct all services. A hearty invitation given to all to attend.

Aktion played here on Tuesday evening, darkness preventing the completion of the game, the score standing 9-5 in favor of Champion when the game was called.
